National Honor Society Chapter Information:

Any Junior or Senior with a Fall Semester cumulative G.P.A. of 3.5 or higher qualify to apply to NHS. At the beginning of Spring Semester, students who qualify will receive an invitation to apply. Students are expected to attend the informational meeting before the application open date. Students are then given several weeks to apply before the application close date. Candidates who turn in all required and necessary materials by the deadline have their application reviewed by the NHS Faculty Committee. This Committee evaluates candidate performance in reflection of NHS' 4 core pillars: scholarship, service, leadership, and character. Candidates who apply are then mailed a letter stating either acceptance or denial. To become an active member of NHS, selected candidates are then invited to an Induction Night as a ceremony to recognize their accomplishment.

In order to keep an active status, NHS members must fulfill all requirements before graduation. These requirements involve a number of community service hours, participation in committees, attendance of all-member meetings, and payment of dues.
