A Message from Dr. Lynda C. Andre, Superintendent

What does the Education Fund support?

The Education Fund comprises 69% of the District’s total budget of $72 million and supports the personnel (teachers, assistants, nurses, social workers, administrators, custodians, secretaries, etc.) that provide educational programs and other services to children in District 7 schools.

It is also the fund that supports technology and instructional materials, including paper supplies, textbooks, desks, chairs – literally everything in a school.

The Education Fund supports virtually all operations required to provide education to our students on a daily basis, including the people, instructional supplies, technology, furniture, and equipment that one would expect to find in a high quality school district.

District 7 educates 7,600 students at 15 campuses within its one 185 square mile boundary. The campuses include 500 classrooms outfitted with interactive whiteboard and projection systems. The District employs 477 certified staff, including 435 teachers and 42 support staff, such as speech therapists, school social workers, school psychologists, etc. 337 classified and exempt staff, such as assistants, custodians, food service workers, secretaries etc., support students across the District.

May 2, 2016
Primary Schools

- Serves grades PreK-2
- 1806 students
- 117 teachers and certified support staff
