

District 7 Families,

District 7's online registration window for the 2020-21 school year will open on Thursday, July 9 at 8:00 a.m. for all Pre-K through 12th grade students. Please read this entire email carefully including the final paragraphs, which cover the option of remote learning for the 2020-21 school year.

An email will be sent to the 1st parent/guardian for all returning students **on Thursday July 9th at approximately 8 a.m.** The email will come from our online registration provider PowerSchool at the email address "noreplyregistration@powerschool.com" with the subject line "Edwardsville Community Unit School District 7 Returning Student Registration for (Student Name)." The email will contain information on how to access the system and will include the student's "Snapcode" which gives parents access to their student(s) Returning Student Registration form in PowerSchool Enrollment. The email will also include additional options for parents to access their students in the PowerSchool Enrollment system. If your student will **not be returning** to the District for the 2020-21 school year, please contact the District office at 618-656-1182 so that the system will not send you additional notifications.

Parents of returning students will be able to upload proof of residency documents required to complete the process. A list of required proof of residency documents provided [here](#). Parents who are unable to upload documents may complete all other portions of the registration process online and can bring the proof of residency documents to the schools during the times listed below.

Parents of new students to the District may click on the orange Online Registration icon on the District's website that will take them to the Registration page. On the Registration page, new parents will click on the "New Student Registration" icon. New parents will create an account and will start the New Student Registration Application. Please note that new students must bring proof of residency documents to the student's school after submitting their online New Student Registration in PowerSchool Enrollment. More information will follow regarding scheduling a time to come to the schools on the following dates. The Registration dates and times are as follows:

The online registration window will close on Tuesday, July 28th at 4:30 p.m.

District 7 families will have the option to have their students receive their instruction remotely rather than in-person during the 2020-21 school year. Any family that chooses to enroll in the all-virtual “remote” learning option must commit for the entire first semester. Families will be allowed to change from remote to in-person learning at the end of first semester. For a family to enroll in the all-virtual learning option, they will need to have an internet capable device for their student(s) to use during the school day. **Families that choose remote learning for their students will still need to complete the online registration process.** We will send a separate email with a link to an online form for families to complete to inform the District of the intent to have their students learn remotely instead of in person. Families will have until **July 17th** to complete this form and enroll in full virtual remote learning for the first semester of the 2020-21 school year. Please note that while Edwardsville High School will attempt to offer as many courses as possible via remote learning, some high school courses may not be able to be taught virtually.

Finally, on Wednesday afternoon, an email will be sent to families from Superintendent Jason Henderson that will provide additional information regarding school re-opening in August and some of the changes that can be expected within the schools. While it will not have every detail that will appear in the school re-opening plan, it will provide enough detail to help parents make an informed decision on in-person versus remote learning.
